The first class equipments 一流的生产设备

"A handy tool makes a handy man", as it says, the integration management of Industrialization & Informatization, and Intellectualization Equipment can guarantee modern production requirements. Recently, FINIO strived to undertake the technology upgrading, including equipment investment and intelligent unmanned workshops, which preliminarily paved the way for large-scale Intellectualization.

In order to enlarge production, form industrial chains, and promote FINIO, the Modern Industrial Town was inaugurated in 2006. Meanwhile, we had invested a large sum of money in technical upgrading, which replaced old manufacturing equipments and changed into new production models. All these efforts facilitated industrial upgrading and restructuring in order to enhance our competitiveness.
